The Most Effective Classroom Technology is You: Approaches to Active and Blended Learning

May 22 from 10:30 am to 12 pm & May 23 from 9:45 am to 11 am

Michael Chen, Ph.D.
Senior Academic Technology Officer
California State University, San Bernardino

About the Keynote Speaker
Dr. Michael Chen currently serves as the Senior Academic Technology Officer (SATO) at Cal State University, San Bernardino (CSUSB) where he provides leadership in all aspects of academic technologies, including instructional design, Online and hybrid delivery technologies, classroom technologies, distance learning support, assistive and accessible technology, and special events.

In 2013, Dr. Chen was selected as one of fifty academic and technology leaders in the nation to participate in the inaugural Breakthrough Models Academy, co-sponsored by EDUCAUSE, League of Innovation, and the Next Generation Learning Initiatives. He has presented and published in areas of academic technology support, faculty development and training, Online education, emerging technologies and Web development.

No stranger to St. Mary’s University, where he served as an academic technology administrator since from 2000 through 2014, Dr. Chen’s visit to the 2017 Faculty Institute on Learning Technologies is a warm welcome home to our colleague and friend. In the two keynotes, he will discuss the deep impact each faculty has on teaching and learning.

Keynote Sessions
(May 22 from 10:30 am to 12 pm)
The Most Effective Classroom Technology is You: Approaches to Active and Blended Learning Pedagogy
